16 VIDEOTAPED DEPOSITION OF CARL MALAMUD

17

18

19 DATE: May 12, 2015
20 TIME: 9:33 a.m.
21 LOCATION: Fenwick & West
22 555 California Street
23 12th Floor
24 San Francisco, California 94104
25 REPORTED BY: Diane S. Martin, CSR 6464, CCRR

<p style="text-align: right;">Page 110</p> <p>1 expertise or conclusion. 2 BY MR. HUDIS: 3 Q. Should I repeat the question, Mr. Malamud? 4 A. Yeah. 5 Q. Does Exhibit 18 indicate to you that 6 Public.Resource attained its nonprofit status in 7 September of 2007? 8 MR. BRIDGES: Same objections. 9 THE WITNESS: The date of the letter is 10 September 25th. That's not the date of the 11 nonprofit status. 12 BY MR. HUDIS: 13 Q. What is the date of the nonprofit status? 14 A. April 13th, 2007. 15 Q. Fair enough. And I see that date. 16 A. Yeah. 17 Q. Thank you very much. 18 (PLAINTIFFS' EXHIBITS 19-20 WERE MARKED.) 19 BY MR. HUDIS: 20 Q. Mr. Malamud, please take a moment to look 21 at Exhibits 19 and 20. 22 A. Okay. 23 Q. Have you looked at the exhibits? 24 A. Yes, I have. 25 Q. Could you tell me what Exhibit 19 is?</p>	<p style="text-align: right;">Page 112</p> <p>1 look like, but I don't know at specific points in 2 time. 3 BY MR. HUDIS: 4 Q. Now, Exhibit 19, in the center are these 5 some of the websites that Public.Resource provides 6 to the public? 7 A. Yes. And there's one more website that I 8 forgot to tell you about on there. 9 Q. Which one? 10 A. Bulk -- 11 MR. BRIDGES: I'm sorry. 12 THE WITNESS: Pardon me. 13 MR. BRIDGES: I object on the grounds it 14 lacks foundation; very confusing to me. 15 What are you directing his attention to in 16 this exhibit? 17 MR. HUDIS: Sure. Counsel, do you see 18 where it says "Watch FedFlix" in the center of the 19 page on Exhibit 19? 20 MR. BRIDGES: Right. 21 MR. HUDIS: And there are a number of 22 websites listed below that? 23 MR. BRIDGES: Okay. I just wanted to be 24 clear. 25 MR. HUDIS: Yes.</p>
<p style="text-align: right;">Page 111</p> <p>1 A. It looks like an out of date copy of the 2 Public.Resource.Org home page. 3 Q. So since the time that my office printed 4 this web page of Exhibit 19, you have updated the 5 content since then? 6 MR. BRIDGES: Objection. Misstates 7 testimony; vague and ambiguous. 8 THE WITNESS: When did you print this? 9 BY MR. HUDIS: 10 Q. Our best recollection is January of 2015. 11 A. I don't know. I would have to 12 double-check. 13 Q. I amend that because Exhibit 20 was also 14 printed on the same date. So we probably printed 15 it in March of 2014. 16 A. Yeah. That makes sense. 17 Q. So this -- so Exhibit 19 and 20 appears to 18 you to be the content of the home page and the 19 about page of the Public.Resource.Org website in or 20 about March of 2014? 21 MR. BRIDGES: Objection. May call for 22 speculation if he doesn't have definite memory; 23 vague and ambiguous; compound; lacks foundation. 24 THE WITNESS: I'd have to speculate. It 25 has the look and feel of what those pages typically</p>	<p style="text-align: right;">Page 113</p> <p>1 MR. BRIDGES: If that's what you're 2 referring to, fine. 3 MR. HUDIS: Yes. 4 BY MR. HUDIS: 5 Q. So continue, Mr. Malamud. 6 A. Bulk.resource.org is the website that I 7 forgot to tell you about. 8 Q. So what kind of information is provided on 9 the Bulk.resource.org website? 10 A. Its primary function is the home for 11 approximately 8 million IRS-exempt organization 12 filings. 13 Q. And when you say "exempt," do you mean tax 14 exempt? 15 A. Exempt organizations is a category that the 16 IRS has assigned. Many of them are tax exempt, but 17 it also includes political organizations. 18 Q. So if I remember my Internal Revenue Code, 19 those are 501(c)(3) and 501(c)(4) organizations? 20 MR. BRIDGES: Objection. May call for 21 legal expertise or conclusion. 22 THE WITNESS: Also section 527 23 organizations. 24 BY MR. HUDIS: 25 Q. So all three?</p>

<p>Page 146</p> <p>1 Q. In what way would data files be considered 2 content for the Internet? 3 A. So content in my mind, and again, this is a 4 broad, philosophical topic, implies something that 5 a human being can look at and take some meaning 6 from. 7 So a data file might include a binary 8 image. Is that content or not? Again, that's -- 9 it would be a fascinating essay. 10 Q. Which brings me to my next question. 11 What does it mean to view content on an 12 Internet website? 13 MR. BECKER: Objection. Vague. 14 THE WITNESS: So view to me sounds to me 15 like a human being at a computer using the 16 Internet. So I think that is an end user looking 17 at an item that is available from another computer. 18 BY MR. HUDIS: 19 Q. What does it mean to access content on an 20 Internet website? 21 MR. BECKER: Objection. Vague. Objection. 22 May also be argumentative. Objection. May call 23 for a legal conclusion. 24 THE WITNESS: So access is a more precise 25 technical term, and that to me implies that a</p>	<p>Page 148</p> <p>1 THE WITNESS: Well, there's different kinds 2 of requests. 3 BY MR. HUDIS: 4 Q. There are different kinds of HTTP requests? 5 A. Yes. 6 Q. All right. Could you tell me what they 7 are? Are there many? 8 MR. BECKER: Objection. Compound. 9 BY MR. HUDIS: 10 Q. Are there many types of HTTP requests? 11 A. Okay. Let me preface this by saying I 12 would want to review the HTTP protocol 13 specification, but there are several, I can say 14 that for a fact. 15 Q. All right. So if you could name me a few 16 of the ones that you recall at this time. 17 A. One of the more common requests is the get 18 request, g-e-t. And that request is how a client 19 asks for a particular URL from a server. 20 Q. All right. What's another type of HTTP 21 request? 22 A. The post request is used to add data to, 23 for example, a web form on the server. 24 Q. Can you tell us another type of HTTP 25 request?</p>
<p>Page 147</p> <p>1 computer, not necessarily a human being, but a 2 computer has requested some data from another 3 computer, and that request was successful and the 4 data was transferred. 5 BY MR. HUDIS: 6 Q. What does it mean to download content from 7 an Internet website? 8 MR. BECKER: Objection. Vague. Objection. 9 May call for a legal conclusion. Objection. May 10 be argumentative. 11 THE WITNESS: Again, that's a vague term, 12 like view. But from the standpoint of an 13 individual human being at a computer, download 14 implies taking some content from another location 15 and having it copied on your personal computer, for 16 example. 17 BY MR. HUDIS: 18 Q. Could you tell us what an HTTP question is, 19 otherwise known as a hypertext transfer protocol 20 request? 21 A. It is one of a series of operations -- 22 protocol operations defined in the HTTP protocol 23 specification. 24 Q. And what does it do? 25 MR. BECKER: Objection. Vague.</p>	<p>Page 149</p> <p>1 A. The head request asks for the metadata 2 associated with the document, such as the last 3 modified time or the number of bytes. 4 Q. Can you name another type of HTTP request? 5 A. There is a put request, and I would have to 6 consult for the precise definition of that one. 7 Q. What generally does a put request do? 8 MR. BECKER: Objection. Vague. 9 THE WITNESS: I'd want to -- 10 MR. BECKER: Objection. Competence. 11 THE WITNESS: I'd want to look at the HTTP 12 protocol specification. It's not something I'm 13 familiar with. 14 BY MR. HUDIS: 15 Q. Is there any other type of HTTP request 16 that you can think of as we sit here now? 17 A. There are others, and I do not know what 18 they are right now. 19 Q. If an Internet user wants to obtain data 20 from a website, would that be a get request? 21 MR. BECKER: Objection. Hypothetical. 22 Objection. Vague. 23 THE WITNESS: A get request is one of the 24 more common mechanisms for accessing data from an 25 HTTP server.</p>

Page 158	Page 160
<p>1 about standards made by quasi-governmental 2 organizations. A totally different topic. 3 BY MR. HUDIS: 4 Q. Could we turn to the next page. Page 3225 5 of Exhibit 22. It says two-thirds of the way down 6 the page, "I gave a little speech about the morals 7 necessity of disseminating standards." 8 What did you mean by that? 9 A. This was a -- 10 MR. BECKER: Objection. Vague. 11 THE WITNESS: This was in the context of a 12 visit to the International Organization For 13 Standards or organization, known as -- 14 International Organization For Standardization, 15 known as ISO. The acronym is different than the 16 name, which says something about them. 17 And this was the organization that was 18 attempting to have the whole Internet run on the 19 open systems interconnection protocol suite, and my 20 little speech to the gentlemen that I visited was 21 that if they wanted their protocol suite to be 22 ubiquitous, to be globally adopted, that would only 23 work if those standards were readily available for 24 people to read. 25 BY MR. HUDIS:</p>	<p>1 Q. What is an ITU specification? 2 A. How a modem works, for example. 3 Q. And please define ISO. 4 A. ISO is the International Organization for 5 Standardization. 6 Q. And the next sentence begins with Eicher. 7 Who is Eicher? 8 A. Eicher was the secretary general of the 9 International Organization for Standardization. 10 Q. Now, the rest of this paragraph reads, 11 "Eicher was quite frank. 25 percent of ISO 12 revenues came from the sale of standards documents. 13 How did I propose to replace that revenue? Even 14 more importantly, ISO was controlled by its member 15 organizations, which also made much money from 16 standards sales. How did I propose to convince 17 groups like ANSI that posting standards for free 18 would help them?" 19 Do you see that? 20 A. Yes, I do. 21 MR. BECKER: Objection. The document 22 speaks for itself. Objection. Relevance. 23 BY MR. HUDIS: 24 Q. In this context -- sorry. I'm sorry if I 25 spoke over you.</p>
Page 159	Page 161
<p>1 Q. When you say "readily available," do you 2 mean -- did you mean readily available for free? 3 MR. BECKER: Objection. Vague. Objection. 4 Relevance. 5 THE WITNESS: The IETF made its protocol 6 specifications available for me. And my little 7 moral lecture to the International Organization For 8 Standardization was that if they wished to win this 9 race to become the basis for the modern Internet, 10 that would only happen if their standards were, in 11 fact, available for free, so anybody could read 12 them. 13 BY MR. HUDIS: 14 Q. The next paragraph says, "We then started 15 talking about applying Bruno to the ISO world." 16 First of all, what is Bruno? 17 A. Bruno was a project that I undertook with 18 the blessings of the secretary general of the 19 International Telecommunication Union to convert 20 and post the ITU specifications to the Internet so 21 anybody could read them for free. 22 Q. So it was basically wide dissemination of 23 documents on the Internet? 24 A. Of ITU specifications. And the ITU is 25 specifications for the telephone network.</p>	<p>1 In this context, what is ANSI? 2 A. ANSI is the American National Standards 3 Institute. 4 Q. So you pose a series of questions here on 5 page 32225, and then on the next page you say, and 6 this is on page 32226 of Exhibit 22, "I proposed my 7 high resolution/low resolution compromise. The 8 plan would post low resolution versions of 9 documents for free on the network and allow ISO and 10 ANSI to continue to sell high resolution versions 11 either on paper or electronically." 12 So was that your answer to the question 13 that you posed on the prior page, 32225? 14 MR. BECKER: Objection. The document 15 speaks for itself. 16 THE WITNESS: It was one of my thoughts in 17 1991 as to a way that ISO could function in a 18 modern world. 19 BY MR. HUDIS: 20 Q. Then in two paragraphs later, you say, "The 21 crucial assumption was that people with the free 22 version would then pay for documents." And at the 23 end of that paragraph it says, "Giving away 24 standards would lead to increased revenues." 25 So here is my question about that crucial</p>

Page 170

1 acknowledge that the issue of copyright and
 2 standards, after they've been incorporated into
 3 law, is unsettled and that ACUS is not taking a
 4 position on this subject?" What did you mean?
 5 MR. BECKER: Objection. The document
 6 speaks for itself. Objection. Vague.
 7 THE WITNESS: I felt it inappropriate for
 8 ACUS to be taking a strong position on what the
 9 copyright status was of documents incorporated into
 10 law.
 11 BY MR. HUDIS:
 12 Q. Why?
 13 A. Frankly, there was a young staff member who
 14 was doing the research for this recommendation who
 15 felt very strongly that standards incorporated by
 16 reference into law maintained their copyright, even
 17 as a part of the Code of Federal Regulations. And
 18 as I said in this paragraph here, I think it would
 19 be fair to say this is above our pay grade. I felt
 20 that the young staffer was -- was stretching.
 21 Q. So that brings me to my next question.
 22 The next sentence says, "There is obviously
 23 a strong bias towards protecting and honoring
 24 copyright on the one hand, but we also have the
 25 Veeck," V-e-e-c-k, "decision and some ambiguity in

Page 171

1 the law. I think it would be fair to say this is,"
 2 quote, "above our pay grade," period, unquote.
 3 A couple of questions on that passage.
 4 What did you mean in the third sentence by
 5 "some ambiguity in the law"?
 6 MR. BECKER: Again, same objections. The
 7 document speaks for itself. It's beyond the scope
 8 of the 30(b)(6) designation. And the objection on
 9 relevance grounds. Again, objection that this may
 10 call for a legal conclusion.
 11 THE WITNESS: So I'm not a lawyer, but I
 12 read the Veeck decision, and it seemed to me that
 13 the researcher at ACUS was drawing conclusions from
 14 the Veeck decision that while perhaps appropriate
 15 for a federal judge to be making, were
 16 inappropriate to be laying them down as categorical
 17 statements. I felt she was reading into the Veeck
 18 decision in ways that were perhaps not supported by
 19 the language. And again, I'm not a lawyer.
 20 BY MR. HUDIS:
 21 Q. I understand.
 22 What conclusions was the researcher drawing
 23 from Veeck that concerned you?
 24 MR. BECKER: Objection. Relevance.
 25 Objection. Vague. Objection. Lacks foundation.

Page 172

1 THE WITNESS: So it's pronounced Veeck, by
 2 the way. It's a Dutch name. P. Veeck. It -- the
 3 preamble was taking at the time a strong position
 4 that standards incorporated into reference by law
 5 had copyright and that the law could have
 6 copyright.
 7 And again, I felt that this young staffer
 8 was simply moving beyond what a body such as the
 9 Administrative Conference of the United States
 10 could say is the established truth. I felt she was
 11 speculating, to use the language we use in
 12 depositions.
 13 BY MR. HUDIS:
 14 Q. And what did you mean by "I think it would
 15 be fair to say this is above our pay grade"?
 16 MR. BECKER: Objection again. The document
 17 speaks for itself. Objection. Asked and answered.
 18 THE WITNESS: So I'm not a lawyer, but I
 19 have looked at a number of documents that indicate
 20 that in the United States the law has no copyright.
 21 And that includes, in many formulations, materials
 22 incorporated by reference into the law. Mr. Bhatia
 23 from ANSI, for example, B-h-a-t-i-a, has stated
 24 many times that standards incorporated by reference
 25 are the law, and it seemed to me that that was a

Page 173

1 long-standing policy of the United States.
 2 And again, this was something that if one
 3 were to draw a different conclusion that a portion
 4 of the law in fact, did maintain copyright and one
 5 needed a license to access and use that material,
 6 that was certainly not a statement that the
 7 organization such as the Administrative Conference
 8 of the United States should be making.
 9 (PLAINTIFFS' EXHIBIT 24 WAS MARKED.)
 10 BY MR. HUDIS:
 11 Q. Mr. Malamud, I'll now show you what's been
 12 marked as Exhibit 24. Before I ask you questions
 13 about the document, what is On The Media?
 14 A. Oh, that's a National Public Radio program.
 15 Q. Who is Bob Garfield?
 16 A. I assume he's a host or reporter.
 17 Q. Do you recognize Exhibit 24?
 18 A. No, I do not. I remember doing an
 19 interview with On The Media, however.
 20 Q. Did you do this interview with On The Media
 21 on or about April 13, 2012?
 22 A. That sounds about right.
 23 Q. What was the purpose of the interview?
 24 A. I think you'd have to ask On The Media.
 25 Q. What was your purpose for giving the

Page 174	Page 176
<p>1 interview?</p> <p>2 MR. BECKER: Objection for relevance.</p> <p>3 THE WITNESS: If a well-respected program</p> <p>4 such as On The Media by National Public Radio wants</p> <p>5 me to talk to them, I will generally make myself</p> <p>6 available.</p> <p>7 BY MR. HUDIS:</p> <p>8 Q. Exhibit 24 appears to be an interview that</p> <p>9 you gave in April of 2012 to Mr. Garfield. I'd</p> <p>10 like to ask you a couple of questions.</p> <p>11 If you would turn in Exhibit 24 to</p> <p>12 production page AERA_APA_NCME 32076.</p> <p>13 A. Okay. Yes.</p> <p>14 Q. Mr. Garfield in the middle of the page</p> <p>15 asks, "There is an expense attached to developing</p> <p>16 and codifying these standards. If we take the</p> <p>17 revenue away from those who do this work, then what</p> <p>18 happens?" And you provide two answers. I'll read</p> <p>19 them.</p> <p>20 "Well, there's two answers to that. One is</p> <p>21 that the nonprofits that develop these standards</p> <p>22 have a lot of different revenue streams. They do</p> <p>23 conferences. They do certification. They develop</p> <p>24 standards that aren't law. In fact, the vast</p> <p>25 majority of their standards are not. And so maybe</p>	<p>1 Counsel. I just mind the ones that would try to</p> <p>2 indicate the -- to the witness how he should answer</p> <p>3 his questions.</p> <p>4 BY MR. HUDIS:</p> <p>5 Q. So my question about this document, do you</p> <p>6 recall this interview?</p> <p>7 A. Yes, I do.</p> <p>8 Q. All right. Do you recall giving this</p> <p>9 answer that I just read into the record?</p> <p>10 A. No, I don't, but I'd be happy to discuss</p> <p>11 the general topics that are addressed there.</p> <p>12 Q. Sure.</p> <p>13 So if standards development organizations</p> <p>14 lose their copyright by incorporation by reference,</p> <p>15 is it your theory that the standards</p> <p>16 organization -- development organization should</p> <p>17 make their money some other way?</p> <p>18 MR. BECKER: Objection. Vague. Objection.</p> <p>19 May call for a legal conclusion. Objection.</p> <p>20 Hypothetical. Objection. May mischaracterize the</p> <p>21 witness.</p> <p>22 BY MR. HUDIS:</p> <p>23 Q. You may answer.</p> <p>24 A. I have testified on this subject before</p> <p>25 Congress saying that I believe that when a standard</p>
Page 175	Page 177
<p>1 they need to adjust their business model,</p> <p>2 particularly given the fact that they are a</p> <p>3 nonprofit public charity."</p> <p>4 You continue. "Answer number two is that</p> <p>5 government has shirked its responsibilities. It</p> <p>6 said 'Gee, we can just incorporate these privately</p> <p>7 developed standards in the law and we won't have to</p> <p>8 pay anything.' And the only people that get</p> <p>9 screwed up by this are the citizens that need to</p> <p>10 read the law."</p> <p>11 Do you recall giving those answers to</p> <p>12 Mr. Garfield at the interview of April 2012?</p> <p>13 MR. BECKER: Objection. Mr. Malamud has</p> <p>14 said that he does not recognize this document.</p> <p>15 Objection to the extent that it's not clear how</p> <p>16 this document was transcribed or its authenticity.</p> <p>17 Objection with regards to relevance, particularly</p> <p>18 on the grounds that the plaintiffs have said that</p> <p>19 the finances and revenue of the plaintiffs, other</p> <p>20 than directly related to the sale of the 1999</p> <p>21 standards, is not at issue in this case as they so</p> <p>22 claim.</p> <p>23 Objection on the grounds that the question</p> <p>24 assumes facts not in evidence.</p> <p>25 MR. HUDIS: I don't mind the objections,</p>	<p>1 is incorporated by reference, usually with the</p> <p>2 active ascents of -- of the SDO, that organization</p> <p>3 is given a gold seal of approval, right. They are</p> <p>4 the original creator of what has become a portion</p> <p>5 of American law, and that that is a unique</p> <p>6 marketing opportunity.</p> <p>7 That opportunity can be used to -- to sell</p> <p>8 authenticated versions of the standard. To sell</p> <p>9 auxiliary products. That there are a number, in</p> <p>10 general, of business models that can emerge out of</p> <p>11 this favored position.</p> <p>12 As to how that specifically applies to a</p> <p>13 specific SDO, again, we would want to look at -- I</p> <p>14 would want to look at the very specific nature of</p> <p>15 that organization. But I still talk in general</p> <p>16 about the unique position of having a standard</p> <p>17 incorporated by reference into federal law and how</p> <p>18 favorable that is.</p> <p>19 BY MR. HUDIS:</p> <p>20 Q. And is it your view that once incorporated</p> <p>21 by reference, the standard loses its copyright</p> <p>22 enforcement ability and the standards development</p> <p>23 organization that wrote that standard,</p> <p>24 "incorporated by reference," would have to obtain</p> <p>25 its income some other way than selling the</p>

<p>Page 178</p> <p>1 standard? 2 MR. BECKER: Objection. Calls for a legal 3 conclusion. Objection. Argumentative. Objection. 4 Lacks foundation and assumes facts not in evidence. 5 Objection. Vague. 6 THE WITNESS: So I disagree with that 7 characterization. I -- I believe that even if the 8 law is available to citizens, that does not 9 preclude a standards development organization 10 continuing to sell that document. Particularly 11 selling an authenticated version, a redlined 12 version, a version with commentary. I believe 13 there are a number of ways one can continue to make 14 that -- that document available for sale. 15 BY MR. HUDIS: 16 Q. Is one of your alternative theories that 17 once a standard is incorporated by reference, that 18 the government should pay for it? 19 MR. BECKER: Objection. May call for a 20 legal conclusion. Objection. Lacks foundation. 21 Assumes facts not in evidence. Objection. 22 Argumentative. 23 THE WITNESS: So there are some things I 24 know and some things I can speculate on. 25 The thing that I know is that the law in</p>	<p>Page 180</p> <p>1 development. And in many cases standards are 2 created, and there are other revenue streams that 3 go to the organization, such as the funding of 4 basic research. 5 So I don't think it's an either/or 6 proposition. I think there's already a lot of 7 money flowing. 8 BY MR. HUDIS: 9 Q. I don't believe your last answer, 10 Mr. Malamud, answered my question. 11 A. Okay. Could you restate the question? 12 Q. Sure. Do you have any views, whether they 13 are strong or not, whether once a standard is 14 incorporated by reference into a government 15 regulation, the government should pay for that? 16 MR. BECKER: All the same objections and 17 also asked and answered. 18 THE WITNESS: I believe I did answer your 19 question in the sense of the government is already 20 paying. 21 Now, my view is it proper for government 22 money to go to an SDO? In theory, yes. 23 MR. HUDIS: Just for the record Exhibit 24 24 bears production numbers AERA_APA_NCME 32075 25 through 32078.</p>
<p>Page 179</p> <p>1 the United States has no copyright, and one is free 2 to read and speak the law. Without needing a 3 license, without needing permission. 4 What I can speculate on is different ways 5 that one might go about handling issues such as 6 revenue and whether the government should be paying 7 or not, and I frankly don't have strong views as to 8 whether or not the -- this scenario that I posited 9 here is the right solution. 10 MR. BECKER: I would advise the witness not 11 to speculate and only to give those answers that 12 the witness knows. 13 THE WITNESS: Okay. 14 BY MR. HUDIS: 15 Q. Do you have any views, whether they're 16 strong or not, whether once a standard is 17 incorporated by reference into a government 18 regulation, the government should pay for that? 19 MR. BECKER: Objection. May call for a 20 legal conclusion. Objection. Vague. Objection. 21 Lacks foundation and assumes facts not in evidence. 22 And argumentative. 23 THE WITNESS: So the government is already 24 paying in many different revenue streams for 25 standards. They pay for access. They help fund</p>	<p>Page 181</p> <p>1 (PLAINTIFFS' EXHIBIT 25 WAS MARKED.) 2 BY MR. HUDIS: 3 Q. Mr. Malamud, I've placed in front of you a 4 document that's been marked as Exhibit 25, bearing 5 production numbers AERA_APA_NCME 31764 through 6 31768. 7 Do you recognize this document? 8 A. It appears to be an essay that I wrote for 9 boingboing. This appears to be a printout of that. 10 Q. Do you have any reason to doubt the 11 authenticity of this document, Exhibit 25? 12 A. No, but I'd want to double check. It 13 appears to be the essay that I wrote. 14 Q. And what is boingboing? 15 A. Boingboing is a blog. 16 Q. And do you recall posting this blog on 17 March 19th, 2012, to boingboing? 18 A. I'm not sure of the exact date, but I did, 19 in fact, author a boingboing official guest 20 memorandum of law. 21 Q. Why did you call it a memorandum of law? 22 A. Because it was talking about an obscure 23 topic in a publication that reaches a very general 24 audience. 25 Q. Under the first heading Roman numeral I,</p>

Page 230

1 MR. BECKER: Objection. Vague.
 2 Objection. To the extent that any of this
 3 information has come from attorney-client
 4 communications, I will instruct the witness not to
 5 divulge any privileged information.
 6 THE WITNESS: I'm aware that they are
 7 updated. I'm not terribly clear on the exact
 8 process that the organizations went through to do
 9 that.
 10 BY MR. HUDIS:
 11 Q. Do you know who uses the standards?
 12 MR. BECKER: Objection. Vague.
 13 Again, to the extent that this answer
 14 requires the divulging of any attorney-client
 15 privileged communications, I'll instruct the
 16 witness not to divulge that information.
 17 Competence. Lacks foundation.
 18 THE WITNESS: So I know some of the people
 19 that use the standard. I know that the Department
 20 of Education has incorporated by reference into its
 21 regulations. So I am -- I know that the Department
 22 of Education has people that use it.
 23 I know a lot of state governments are
 24 putting together tests that conform to the
 25 standards.

Page 231

1 I believe there are a number of other
 2 agencies, I believe Office of Personnel Management,
 3 I believe Department of Defense, a number of state
 4 organizations, are all users of the standard
 5 because they specify that it shall be used.
 6 BY MR. HUDIS:
 7 Q. Do you know of any non-governmental users
 8 of the standards?
 9 MR. BECKER: All the same objections.
 10 Vague.
 11 To the extent that there is any information
 12 that the witness has learned from his attorneys, I
 13 will instruct him not to divulge this privileged
 14 information.
 15 THE WITNESS: I know that the Educational
 16 Testing Service, ETS and a number of organizations
 17 that create tests, are users of the standard, and
 18 the reason I know that is there's been a series of
 19 procurements by government organizations that
 20 require the use of the standard.
 21 BY MR. HUDIS:
 22 Q. Do you know of any other non-governmental
 23 users of the standards?
 24 MR. BECKER: All the same objections. Also
 25 object for competence.

Page 232

1 THE WITNESS: My sister read it in the
 2 course of her doctoral course work.
 3 BY MR. HUDIS:
 4 Q. And what was your sister's doctoral course
 5 work?
 6 A. On, I want to state this properly. I
 7 believe physical and rehabilitative therapy. A
 8 subset of psychology.
 9 Q. How did the standards first come to your
 10 attention?
 11 MR. BECKER: Objection. Vague. Objection.
 12 Ambiguous.
 13 THE WITNESS: I was looking at the
 14 standards incorporated by reference under the Code
 15 of Federal Regulations, and the standards at issue
 16 were one of the ones that were specified.
 17 BY MR. HUDIS:
 18 Q. And what year was that?
 19 A. Probably 2012. Early 2012.
 20 Q. When did Public.Resource --
 21 A. Might have been earlier. Might have been
 22 earlier. I'm not sure.
 23 Q. Sometime in 20 -- in 2012?
 24 A. Coming to my attention in the sense of
 25 remembering it now, yes.

Page 233

1 Q. What, if anything, made you interested in
 2 acquiring the standards?
 3 A. It was --
 4 MR. BECKER: Objection. Vague.
 5 THE WITNESS: -- incorporated by reference
 6 into the Code of Federal Regulations.
 7 BY MR. HUDIS:
 8 Q. When did Public.Resource first make the
 9 decision to post the standards to one of its
 10 websites?
 11 MR. BECKER: Objection. Vague. Objection.
 12 Lacks foundation. Objection. May call for a legal
 13 conclusion.
 14 THE WITNESS: So it would have been
 15 sometime after obtaining a copy of the standard and
 16 examining it and satisfying myself that, in fact,
 17 it was the document that was incorporated by
 18 reference, and sometime between the procurement,
 19 which I believe was in May 2012, and the actual
 20 posting, which I believe was in July 2012.
 21 BY MR. HUDIS:
 22 Q. So how did Public.Resource come to the
 23 decision to post the standards on one of its
 24 websites?
 25 MR. BECKER: Objection. Vague and

Page 262	Page 264
<p>1 BY MR. HUDIS: 2 Q. Mr. Malamud, I show you a document that has 3 been marked as Exhibit 34, bearing production 4 numbers AERA_APA_NCME 31528 through 31738. 5 Do you recognize this document? 6 A. It appears to be a copy of the standards at 7 issue with the certificate of incorporation on the 8 top. 9 Q. All right. And is this the cover sheet 10 that you appended on top of the 1999 standards 11 posted on Public.Resource's website? 12 A. Yes, it appears to be. 13 Q. Who prepared this cover sheet? 14 A. I did. 15 Q. And who chose the language for the cover 16 sheet? 17 A. I did. 18 Q. What was your intention, Mr. Malamud, for 19 appending this cover sheet of Exhibit 34 on top of 20 the 1999 standards posted on Public.Resource's 21 website? 22 A. I wanted to be very clear that this was a 23 posting of a standard incorporated by reference 24 into the Code of Federal Regulations. I wanted to 25 place this document in context.</p>	<p>1 Q. Did HTC Global participate in this process? 2 A. They did not. 3 Q. Did anyone else besides yourself 4 participate in this process? 5 A. It's just me. 6 Q. I'd like you to look in Exhibit 29, 7 interrogatory answer number 4 on page 6. 8 So consistent with your -- your prior 9 testimony, does this interrogatory answer number 4 10 in Exhibit 29 accurately identify all the persons 11 and entities who were involved in disassembling the 12 paper version of the 1999 standards, scanning them, 13 processing them and posting them to the Internet? 14 MR. BECKER: Objection to form. 15 THE WITNESS: Yes, it was me. 16 BY MR. HUDIS: 17 Q. I just want to go a little bit into depth 18 about quality control. 19 So what quality control procedures did you 20 use to ensure the quality of the textual comment -- 21 content of the 1999 standards that you posted to 22 the Internet? 23 MR. BECKER: Objection. Vague. 24 THE WITNESS: This is a scan of a document. 25 BY MR. HUDIS:</p>
Page 263	Page 265
<p>1 Q. And what was your purpose on the cover 2 sheet of using the medallion that had the word 3 "Repeatedly Approved." 4 A. To signify that the executive director of 5 the Office of the Federal Register had explicitly 6 and deliberately approved this incorporation by 7 reference. 8 Q. We just went through the process that you 9 used. We asked you the question, did you digitize 10 or convert to a digital format the 1999 standards, 11 and we went through that process. 12 My question is, who participated in the 13 process of disassembling the paper version of the 14 1999 standards, scanning them and processing them, 15 as you described here in interrogatory answer 16 number 3 and posting them to the Internet? 17 MR. BECKER: Objection. Compound. 18 THE WITNESS: That was me. 19 BY MR. HUDIS: 20 Q. Did Point.B Studio participate in this 21 process? 22 A. No. 23 Q. Did Rebecca Malamud participate in this 24 process? 25 A. She did not.</p>	<p>1 Q. Mm-hm. 2 A. It's a pixel-by-pixel replication of what 3 was on the printed page. 4 Q. I'll be more specific. 5 Did you check for missing or incorrectly 6 scanned pages? 7 A. I believe I did. 8 Q. Did you check for pages that may have had 9 blurred text? 10 A. I believe I did. 11 Q. Now, you say, "I believe I did." Do you 12 know for sure that you did? 13 A. My standard procedure is to do those 14 things. I don't know this specific document simply 15 because I don't recollect back to that period in 16 May 2012. So I can't testify under oath that I 17 did, in fact, do that. But that certainly is my 18 standard procedure. 19 Q. Mr. Malamud, what is search engine 20 optimization? 21 A. Search engine optimization is a technical 22 term of art that has to do with how documents that 23 are on a web server show up in search engine 24 results. 25 Q. Please continue.</p>

<p style="text-align: center;">Page 266</p> <p>1 A. In particular with the PDF document, what 2 you want in a search engine result is rather than, 3 for example, a snippet of OCR, you want the actual 4 title of the document to show up in a description. 5 It's what Google would cause a snippet. 6 So by embedding metadata in the header of 7 the PDF file, the attempt is to make sure that that 8 document title shows up in the search engine 9 results so people know what that document is. 10 Q. So, Mr. Malamud, did you check the metadata 11 you added to the PDF file comprising the 1999 12 standards for search engine optimization? 13 A. Well, when I created the script that embeds 14 the metadata in the header, I had in mind search 15 engine optimization. 16 So assuming I did my job right, and 17 remember search engines change over time. So if 18 you did something in one period of time, that 19 doesn't necessarily mean that a search engine will 20 react the same way later on. 21 But assuming that I wrote that initial 22 script properly, then this document would have 23 shown up in a meaningful fashion in search engine 24 results. 25 Q. And your answer just now said, "assuming."</p>	<p style="text-align: center;">Page 268</p> <p>1 did do that on a consistent basis. It's not part 2 of our normal workflow, no. 3 BY MR. HUDIS: 4 Q. Was the PDF file of the 1999 standards that 5 you created ever converted from PDF to any other 6 format before posting to the Internet? 7 MR. BECKER: Objection. Form. 8 THE WITNESS: I don't think so. 9 BY MR. HUDIS: 10 Q. So the 1999 standards that you scanned and 11 creed a PDF file, was it ever converted to JPEG? 12 MR. BECKER: Objection. Form. 13 THE WITNESS: I'm not sure what that means. 14 BY MR. HUDIS: 15 Q. Was it converted from PDF format to a JPEG 16 format? 17 MR. BECKER: Same objection. 18 THE WITNESS: I don't think that would make 19 any sense on a document like that. You'd end up 20 with, you know, a couple hundred JPEG files. 21 No. I certainly wouldn't have done that. 22 BY MR. HUDIS: 23 Q. Okay. Did you convert it to SBG format? 24 A. No. That wouldn't make any sense at all. 25 Q. And would you have any -- would you have</p>
<p style="text-align: center;">Page 267</p> <p>1 You don't know for sure with respect to this 2 particular document? 3 A. I don't recollect looking at this document 4 in Google or Bing or other search engine results to 5 determine that fact. 6 Q. Did you check the quality of the optical 7 character recognition process for accuracy for the 8 1999 standards? 9 MR. BECKER: Objection. Form. 10 THE WITNESS: Hold on a second. I'd like 11 to double-check something. 12 OCR is inherently prone to certain errors. 13 And what I used was the best available OCR that I 14 had, which was in Adobe Acrobat Pro. But I did not 15 pull up the underlying text. The underlying OCR 16 text is used to search a file; not to read a file. 17 Does that answer your question? 18 BY MR. HUDIS: 19 Q. So in doing a quality check of the optical 20 character recognition process for accuracy, did you 21 attempt to pull up the underlying text after the 22 scan was completed? 23 A. No. 24 MR. BECKER: Objection. Form. 25 THE WITNESS: No. And I never said that I</p>	<p style="text-align: center;">Page 269</p> <p>1 had any reason to convert the PDF file of the 1999 2 standards to a MathML format? 3 MR. BECKER: Objection. Form. 4 THE WITNESS: I don't -- well, first of 5 all, MathML is embedded in an HTML file. 6 And second of all, at least to the best of 7 my recollection, I don't think there's any 8 mathematical formulas in the standards at issue. 9 BY MR. HUDIS: 10 Q. So that brings me to my next question. 11 Was the PDF file that you created from the 12 1999 standards ever converted to HTML format? 13 MR. BECKER: Objection. Form. 14 THE WITNESS: No, we didn't do that. 15 BY MR. HUDIS: 16 Q. Was the PDF file of the 1999 standards that 17 you created ever converted from PDF to a format 18 making the standards accessible to the visually 19 impaired? 20 MR. BECKER: Objection. Form. Objection. 21 Competence; lacks foundation and assumes facts not 22 in evidence. 23 THE WITNESS: The OCR procedure does, in 24 fact, make the document accessible to the visually 25 impaired.</p>

Page 270	Page 272
<p>1 BY MR. HUDIS: 2 Q. In what way? 3 A. A screen reader is able to read the 4 underlying text, granted with potential OCR errors, 5 but the vast majority of the text is accessible to 6 those that are visually impaired. 7 Q. Are you familiar with the format, 8 refreshable Braille? 9 A. No, I'm not. 10 Q. Did you convert the PDF file of the 1999 11 standards that you made to refreshable Braille 12 format? 13 A. We don't do that. We convert to HTML. 14 Q. Did -- and you didn't convert -- 15 A. So no. No is the answer. 16 Q. All right. And you didn't convert the PDF 17 file to HTML either? 18 A. This particular standard, no, we did not. 19 Q. Okay. And did you convert the PDF file 20 that you created from the 1999 standards to large 21 print? 22 MR. BECKER: Objection. Form. 23 THE WITNESS: It is an unencumbered PDF, 24 and so a viewer can, in fact, magnify the text that 25 is there.</p>	<p>1 accurately state when and where you posted the 1999 2 standards to the Internet? 3 A. It does. 4 Q. And what was the date that you posted the 5 standards to the Internet? 6 MR. BECKER: Objection. Form. 7 THE WITNESS: As our interrogatory says, 8 July 11, 2012 on Law.Resource.Org and ... 9 BY MR. HUDIS: 10 Q. All right. And -- 11 A. Yeah. 12 Q. And as you said, you posted the standards 13 to Law.Resource.Org, and you also posted the 14 standards to the Internet Archive; correct? 15 A. That is correct. 16 Q. Mr. Malamud, what is the name of the 17 Public.Resource web server to which you saved the 18 file containing the contents of the 1999 standards? 19 A. Law.Resource.Org. 20 Q. That's the name of the server? 21 A. Yes. 22 MR. BECKER: Please give me time to object. 23 MR. HUDIS: I'm sorry. 24 THE WITNESS: That was my fault. 25 MR. HUDIS: I don't want to be rude,</p>
Page 271	Page 273
<p>1 So in that sense, large print, we did not 2 retype the documents into a large print edition. 3 BY MR. HUDIS: 4 Q. Mr. Malamud, do you have any materials in 5 your -- in Public.Resource's possession documenting 6 the process you went through of disassembling the 7 paper version of the 1999 standards, scanning them, 8 processing them and posting them to the Internet? 9 MR. BECKER: Objection. Compound. 10 THE WITNESS: No, there's no intermediate 11 process. That's a book and then it gets scanned. 12 THE REPORTER: Did you say "there's no 13 intermediate product"? 14 THE WITNESS: Intermediate process. 15 BY MR. HUDIS: 16 Q. Mr. Malamud, once you converted the 1999 17 standards from paper to the PDF format, what did 18 you do with the contents of the file? 19 A. I posted the file to Law.Resource.Org and 20 to the Internet Archive. 21 Q. Mr. Malamud, could you please return your 22 attention to Exhibit 29, interrogatory answer 23 number 2. 24 A. Okay. 25 Q. Does interrogatory answer number 2</p>	<p>1 Counsel, seriously. Okay. 2 BY MR. HUDIS: 3 Q. Is the file containing the 1999 standards 4 still saved on that web server? 5 MR. BECKER: Objection. Vague and 6 ambiguous; assumes facts not in evidence. 7 THE WITNESS: It is not in the document 8 tree of the web server, no. 9 BY MR. HUDIS: 10 Q. Do you still have that file still saved 11 somewhere within Public.Resource's computer 12 systems? 13 A. Yes, I do. 14 Q. Where? 15 A. One copy on my desktop. One copy in the 16 not published directory. I don't know what the 17 exact name of it is. Someplace on our server, but 18 it's a private area that's not accessible to -- to 19 anybody but myself and our systems administrator. 20 Q. Mr. Malamud, does Public.Resource have any 21 logs from its web servers documenting the date on 22 which the 1999 standards were posted to 23 Public.Resource's website? 24 MR. BECKER: Objection. Vague and 25 ambiguous. Objection. Lacks foundation. And</p>

<p style="text-align: right;">Page 274</p> <p>1 assumes facts not in evidence. 2 THE WITNESS: There's no logs, but there 3 was a file creation date on the file. 4 BY MR. HUDIS: 5 Q. Has any documentation noting the file 6 creation date ever been produced to us? 7 A. I don't know. 8 MR. HUDIS: Counsel, if that document has 9 not been provided to us, it should be provided to 10 us now. 11 THE WITNESS: So the file creation date was 12 the date that the standard was posted. And when at 13 your request we removed that standard and replaced 14 it with a stub, that's going to be the new creation 15 date. So I don't believe there's going to be a 16 record. 17 BY MR. HUDIS: 18 Q. What about the old creation date when the 19 original standards file was -- was posted to your 20 web server? 21 A. I moved it to a different area. I mean, 22 you can make the request and we'll go look and see 23 if that's there, but it's -- 24 Q. Thank you, Mr. Malamud, I appreciate that. 25 Did you post the entirety of the 1999</p>	<p style="text-align: right;">Page 276</p> <p>1 in evidence. 2 THE WITNESS: It's the collection I created 3 to hold the standards incorporated by reference. 4 BY MR. HUDIS: 5 Q. All right. So you created the Codes of the 6 World collection on Internet Archive's website? 7 A. I did. 8 Q. Mr. Malamud, I show you what was previously 9 marked at Internet Archive's deposition in this 10 case as Butler Exhibit 6. 11 Do you see that? 12 A. I do. Let me correct a misstatement. It 13 wasn't called Codes of the World. It was called 14 Global Public Safety Codes is the name of the 15 collection. 16 Q. And what types of materials did you post to 17 the Global Public Safety Codes collection on 18 Internet Archive? 19 A. Standards incorporated by reference in the 20 law. 21 Q. Do you recognize Butler Exhibit 6? 22 A. This is a document you created? 23 Q. It's a document we printed from the 24 Internet Archive. 25 A. This appears to be a series of screen dumps</p>
<p style="text-align: right;">Page 275</p> <p>1 standards to Public.Resource's website? 2 A. Yes. 3 Q. Mr. Malamud, as it pertains to the Internet 4 Archive, what is a collection? 5 MR. BECKER: Objection. Asked and 6 answered. 7 THE WITNESS: A collection is a set of 8 items that often have a common theme. 9 BY MR. HUDIS: 10 Q. And you said you posted the 1999 standards 11 to Internet Archive's website; correct? 12 A. That is correct. 13 Q. And did you post the entirety of the 1999 14 standards to Internet Archive's website? 15 A. I did. 16 Q. Under which collection at the Internet 17 Archive did you post the 1999 standards? 18 MR. BECKER: Objection. Form. 19 THE WITNESS: The current name of that 20 collection is Codes of the World. 21 BY MR. HUDIS: 22 Q. How did you choose this particular 23 collection to which to post the 1999 standards? 24 A. It's the -- 25 MR. BECKER: Objection. Assumes facts not</p>	<p style="text-align: right;">Page 277</p> <p>1 from that item in which you are paging through the 2 standards at issue, is what this appears to be. 3 Q. That's exactly correct. And you just saved 4 me about five minutes of explanation. 5 A. Oh, sorry about that. 6 Q. That's fine. Thank you very much, 7 Mr. Malamud. 8 What is the web tool, if you know, that 9 creates the ability for a user to turn the pages of 10 the 1999 standards like a book? 11 MR. BECKER: Objection. Vague and 12 ambiguous; confusing. 13 THE WITNESS: I have heard it called book 14 reader, but I don't know the details of what the 15 code is or how it's embedded or anything of that 16 sort. 17 BY MR. HUDIS: 18 Q. So you've heard it referred to as a book 19 reader application? 20 A. Yes. 21 Q. All right. Have you ever heard of a DjVu 22 Reader? 23 A. Yes, I have. 24 Q. And what -- what is its function, to the 25 best of your knowledge?</p>

<p>Page 306</p> <p>1 in your e-mail to Alexis Rossi? 2 A. Because that's the proper address to inform 3 the Internet Archive about matters pertaining to a 4 collection. 5 Q. And what do you mean by matters relating to 6 a collection? 7 A. If you have technical problems with your 8 collection or other issues or problems, that would 9 be the address that you would write to. 10 Q. And at the end of this e-mail there's a 11 URL. Do you see that? 12 A. I do. 13 Q. And it ends with AERA.standards.1999? 14 A. I see that. 15 Q. All right. Is this the URL where you 16 posted the 1999 standards on Internet Archive's 17 website? 18 A. It is. 19 Q. Mr. Malamud, if Public.Resource succeeds in 20 this lawsuit brought by AERA and its co-plaintiffs, 21 will Public.Resource repost the 1999 standards on 22 its website? 23 MR. BRIDGES: Objection. Hypothetical. 24 THE WITNESS: I guess I'd have to read the 25 decision and make my determination based on that.</p>	<p>Page 308</p> <p>1 Q. How would you make that determination? 2 MR. BRIDGES: Objection. May call for 3 speculation; vague and ambiguous; argumentative. 4 THE WITNESS: I would want to look at the 5 specific nature of the incorporation by reference. 6 I would want to look at that specific standard, and 7 I'd want to make a determination if that was an 8 area that I wanted to continue to invest resources 9 in. So I don't know. It would depend on the 10 specifics. 11 BY MR. HUDIS: 12 Q. If you looked at the 2014 standards and 13 made a determination that it was an area in which 14 you wanted to continue to invest resources, if 15 Public.Resource is successful in this litigation 16 and the 2014 standards are incorporated by 17 reference by a state or federal agency, would you 18 post the 2014 standards to the Internet? 19 MR. BRIDGES: Entirely hypothetical; lacks 20 foundation; argumentative; vague and ambiguous. 21 THE WITNESS: So I really don't know about 22 the states. 23 If the federal government did a deliberate 24 and explicit incorporation by reference in what I 25 felt was a substantive rule, right, not an offhand</p>
<p>Page 307</p> <p>1 BY MR. HUDIS: 2 Q. Well, if you're totally successful? 3 MR. BRIDGES: Again, hypothetical. 4 THE WITNESS: Our goal is to post all 5 standards incorporated by reference into the Code 6 of Federal Regulations. So yes. 7 BY MR. HUDIS: 8 Q. If Public.Resource is successful in this 9 litigation, how easy or difficult would it be for 10 you to repost the 1999 standards on 11 Public.Resource's website? 12 MR. BRIDGES: Hypothetical; lacks 13 foundation; assumes facts not in evidence; vague 14 and ambiguous; compound. 15 THE WITNESS: It wouldn't be difficult. 16 BY MR. HUDIS: 17 Q. If the next version of the Standards on 18 Educational and Psychological Testing, the 2014 19 version, is ever incorporated by reference by a 20 state or federal agency, will you post that version 21 of the standards to the Internet as well? 22 MR. BRIDGES: Objection. Hypothetical; 23 compound; vague and ambiguous. 24 THE WITNESS: I don't know. 25 BY MR. HUDIS:</p>	<p>Page 309</p> <p>1 thing, then I would certainly consider strongly 2 posting that document. 3 BY MR. HUDIS: 4 Q. What is -- what distinction do you make 5 between substantive and offhand? 6 A. I look for an explicit and deliberate 7 incorporation by reference. 8 Q. If I asked you this before, Mr. Malamud, 9 and certainly your counsel will tell me, I 10 apologize. 11 Even though the 1999 standards have been 12 removed from public view on Public.Resource's 13 website, is the digital file containing the text of 14 the 1999 standards still stored somewhere on 15 Public.Resource's computer systems? 16 MR. BRIDGES: Objection. Vague and 17 ambiguous. 18 THE WITNESS: Yes. 19 BY MR. HUDIS: 20 Q. Even though the 1999 standards were removed 21 from public view on Internet Archive's website, to 22 the best of your knowledge is the digital file 23 containing the text of the 1999 standards still 24 stored somewhere on Internet Archive's computer 25 systems?</p>

<p style="text-align: right;">Page 326</p> <p>1 case deserves the Court's fullest attention without 2 a rush to reach an interim ruling in the absence of 3 a full record." 4 What did you mean by that? 5 MR. BRIDGES: Objection. Lacks foundation; 6 vague and ambiguous. 7 THE WITNESS: As I state in the next 8 paragraph, "In order to focus this case on 9 developing an appropriate record for a decision on 10 the merits, Public.Resource.Org has voluntarily 11 removed the document in question from the websites 12 under its control." 13 And as you had stated in a previous 14 sentence, this was so it was done without a rush to 15 reach an interim ruling in the absence of a full 16 record. 17 BY MR. HUDIS: 18 Q. I'd like to now direct your attention, 19 Mr. Malamud, to the fourth paragraph of Exhibit 43. 20 And it says, "Until the conclusion at trial on the 21 merits in this case, Public.Resource.Org will keep 22 the document in question off of the websites under 23 its control and will not disseminate the document 24 in whole or in part, including any revisions, and 25 will maintain the status on the Internet Archive to</p>	<p style="text-align: right;">Page 328</p> <p>1 vague and ambiguous. 2 THE WITNESS: Yes. 3 BY MR. HUDIS: 4 Q. Since the time of this memo of Exhibit 43, 5 have the 1999 standards been reposted to a website 6 under Public.Resource's control? 7 MR. BRIDGES: Objection. Vague and 8 ambiguous; argumentative. 9 THE WITNESS: Yes. 10 BY MR. HUDIS: 11 Q. Why? 12 A. There was a technical malfunction in one of 13 our servers and by mistake a copy of the full 14 standard was posted in place of the stub. 15 Q. And when was that? 16 A. That was in January 2015. 17 Q. Mr. Malamud, during the two-year period 18 that the 1999 standards were posted to 19 Public.Resource's website, was a record kept of how 20 many Internet users viewed or accessed the 21 standards from that website location? 22 MR. BRIDGES: Objection. Utterly lacks 23 foundation; argumentative; vague and ambiguous, 24 and -- yeah. And competence. 25 THE WITNESS: Our server log's document</p>
<p style="text-align: right;">Page 327</p> <p>1 prevent any public access to the document from the 2 archive's websites." Do you see that? 3 MR. BRIDGES: Objection. The document 4 speaks for itself. 5 THE WITNESS: I do. 6 BY MR. HUDIS: 7 Q. What did you mean by that sentence? 8 MR. BRIDGES: Objection. The document 9 speaks for itself; lacks foundation; vague and 10 ambiguous; argumentative. 11 THE WITNESS: I think the sentence is very 12 clear; right? 13 BY MR. HUDIS: 14 Q. What did you mean? 15 A. I meant "Until the conclusion of trial on 16 the merits of this case, Public.Resource.Org will 17 keep the document in question off of the websites 18 under its control and will not disseminate the 19 document in whole or in part, including any 20 revisions, and will maintain the status on the 21 Internet Archive to prevent any public access to 22 the document from the archive's websites." 23 Q. And this memo was written by you on June 24 12th, 2014? 25 MR. BRIDGES: Objection. Lacks foundation;</p>	<p style="text-align: right;">Page 329</p> <p>1 retention policy was a two-week window until 2 litigation commenced in the ASTM case when we began 3 keeping the logs permanently. And so we -- we did 4 not keep a record prior to that. 5 BY MR. HUDIS: 6 Q. Do you know the earliest date on which you 7 kept such logs? 8 MR. BRIDGES: Objection. Again, lacks 9 foundation; argumentative; vague and ambiguous and 10 competence. 11 THE WITNESS: So again, the document 12 retention policy was a two-week window on the logs, 13 and in September -- August or September of 2013 we 14 changed that policy because litigation had 15 commenced. And so at that point we began keeping 16 the logs permanently. 17 BY MR. HUDIS: 18 Q. And do you still have those logs today? 19 MR. BRIDGES: Same objections. I think I 20 missed a compound objection to the underlying 21 question. 22 THE WITNESS: Yes. 23 BY MR. HUDIS: 24 Q. In what form are the logs kept? 25 MR. BRIDGES: Same objections.</p>

REPORTER'S CERTIFICATE

The undersigned Certified Shorthand Reporter licensed in the State of California does hereby certify:

I am authorized to administer oaths or affirmations pursuant to Code of Civil Procedure, Section 2093(b), and prior to being examined, the witness was duly administered an oath by me.

I am not a relative or employee or attorney or counsel of any of the parties, nor am I a relative or employee of such attorney or counsel, nor am I financially interested in the outcome of this action.

I am the deposition officer who stenographically recorded the testimony in the foregoing deposition, and the foregoing transcript is a true record of the testimony given by the witness.

Before completion of the deposition, review of the transcript [X] was [] was not requested. If requested, any changes made by the deponent (and provided to the reporter) during the period allowed are appended hereto.

In witness whereof, I have subscribed my name this ____ day of _____, 2015.

DIANE S. MARTIN, CSR No. 6464
